

Leads 2.0: Real-time Comparative Quoting

Provide real-time rates 24/7 from your agency website or email.

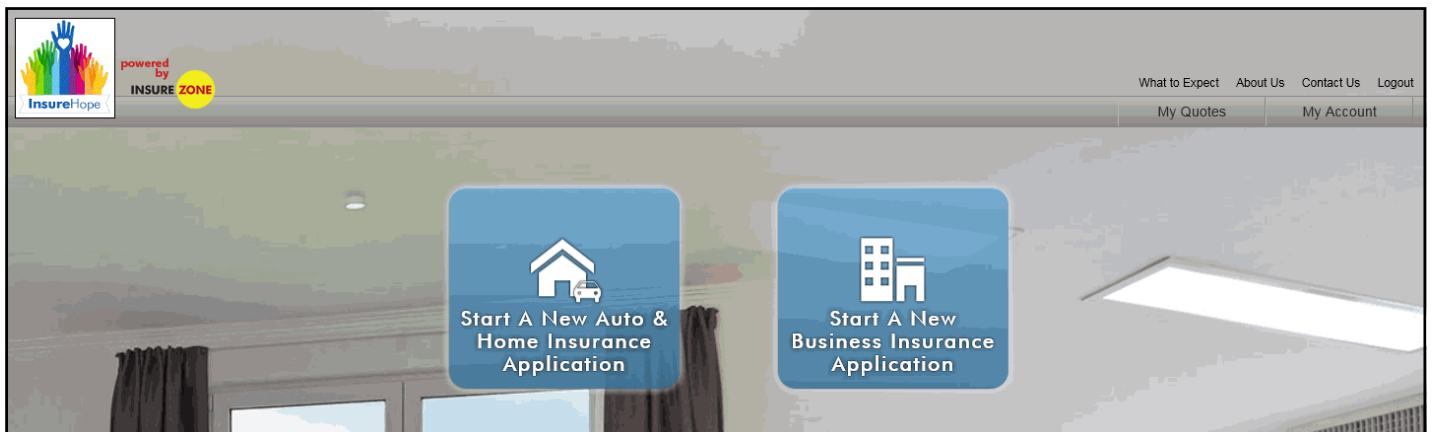

Leads 2.0 gives agents a branded link which can be added to their website or email signature. With one click, your client is directed to an application which when submitted, posts a workable lead to your dashboard.

Personalized Link in the form of a simple URL allows a producer to provide their clients with an application via email or website link.

Real Time Comparative Quotes from national carriers, available to insureds 24/7 from a link on your website or email signature.

Applications are fully field-level validated so that each lead contains accurate information as a starting point.

Logins For Each Consumer allow the insured to return to a personalized dashboard of previously submitted applications and review their quotes.
